# QUAL GUARD

UNIVERSAL COOLANT

We have the perfect range of Anti-Freeze and Coolants to protect your engines from frost damage, overheating and corrosion in both older and brand new vehicles. For all year-round temperature stability, the choice of correct coolant has never been more important. Time and again it has been proved that putting the right product in your engines makes all the difference to the increased performance, efficiency and reliability of your vehicles.

## Choose from 3 High Quality Coolants...

### HYBRID 50/50 COOLANT Pre-Mixed Hybrid Coolant

Ready to use, this is a pre-mixed coolant version with all the benefits. Already diluted, this option means you can apply it directly into your coolant system without the fuss.

### HYBRID CONCENTRATED COOLANT 5 Year Hybrid Coolant

This is the latest generation of top quality Long-Life Universal Coolants which meets the performance requirements of the majority of agricultural and commercial Original Equipment Manufacturer's specifications. As a Hybrid product it is based on up to the minute silicate and carboxylate inhibitor technology and is suitable for vehicles made after 2005, right up to the present day. This Anti-freeze provides outstanding engine maintenance free protection in temperatures as low as -40°C and also acts as a summer coolant in hot temperatures. Offering all year round protection, it also helps prevent rust and corrosion in cooling systems when mixed with the right amount of water.

### UNIVERSAL BLUE ANTI-FREEZE Ideal for Old & New Vehicles

This is a great all round product, designed to protect both cast iron and aluminium engines from frost damage as well as defending against rust and corrosion in the cooling system. This versatile anti-freeze, cleverly operates as a coolant in the hot summer months shielding the engine from overheating and is therefore suitable for all year round use. Blue in colour, this is also ideal for both new and older vehicles and is perfect for use in cars, vans, buses, coaches, trucks and other plant and agricultural machinery where a non OAT (Organic Acid Technology) or Hybrid Coolant is not required. A Mono Ethylene Glycol based anti-freeze, this product also meets the requirements of BS 6580:1992.
